Alternative 4: **Fixed Span Bridge**

Features:

- New four-lane high level fixed span bridge (45 feet) with no drawbridge openings for inbound and outbound traffic.
- New bridge connects directly into existing Philadelphia and Baltimore Avenues via ramps.
- Traffic signals added at several intersections north of ramps on Philadelphia and Baltimore Avenues.
- Additional left turn lane provided on 5th Street to go on Philadelphia Avenue.
- Existing bridge retained for pedestrians, bicyclists, and fishermen.
- Includes retaining walls to reduce impacts.
